DESIGN MEETS QUALITY

THE NEW PREMIUM STANDS BY GRAVITY®

Gravity® is an award-winning line of stands and accessories for stage and studio use and a brand of the Adam Hall Group. Expert engineers and users have teamed up to create thoroughly professional products with innovative details such as our unique colour coding rings.

Two years of extensive research and development have resulted in a comprehensive selection of high-quality stands and accessories that are built for reliable functionality and longevity. Gravity® products are made of superior materials only including thick-walled precision tubing, die-cast zinc and double injection molded thermoplastics.

With their durable heavy-duty construction, quick and easy handling and contemporary looks Gravity® stands and accessories are the perfect choice when only pro quality products will do. Committed to superior design, workmanship and functionality, we provide a 5-year warranty on all Gravity products.

Gravity® - Stand your ground.

- ✓ 5-year warranty on all Gravity products.
- ✓ Stands and accessories for stage and studio use.
- ✓ Professional functionality with innovative details.
- ✓ Designed and engineered in Germany.
- ✓ Ultra durable construction, built to last.
- ✓ High strength precision tubing and die-cast zinc components.
- ✓ Soft touch rubber-coated clamps and knobs.
- ✓ Double injection molded adjustment knobs.
- ✓ Replaceable rubber marker rings for colour coding and personalizing your stand.

G-RINGS

THE STYLE FACTOR

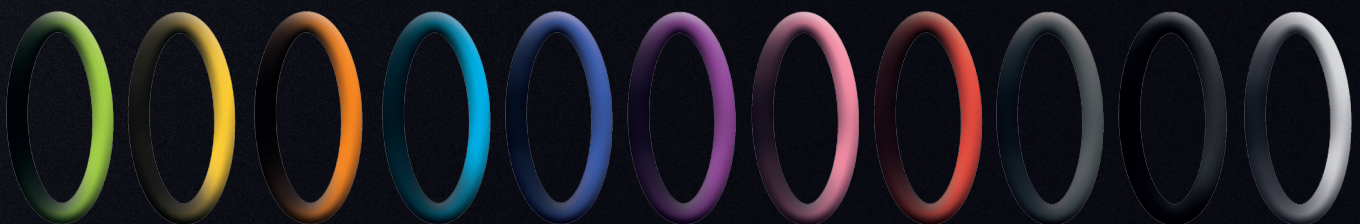

At Gravity, we believe that stands are more than just accessories. Ultimately, they are part of the show. That's why we build them for heavy duty use and easy, ergonomic handling. But we also opted for a stylish look that sets them apart from dime-a-dozen stands and makes a strong visual statement.

Gravity products feature our unique sheen green "G" rings that are replaceable in seconds. Available in a variety of attractive colours, you can now customize your stands with additional ring packs and match them to your show's visuals, music genre or personal preference.

What's more, the smart "G" ring concept provides convenient colour coding to indicate a stand's intended purpose, placement on stage or the performer to use it. Just pick your colours to add style and distinction to your stands, or choose Vanta Black "G" rings for a classic, discreet look. Black rings are included with all Gravity products.

GRAVITY ORIGINAL REPLACEMENT PARTS

Built for durability and longevity, Gravity products are constructed from premium quality materials, such as heavy duty aluminum and steel, tough die cast zinc and hardwearing thermoplastics.

In the unlikely event that the strains of stage and studio use take their toll, we offer a comprehensive selection of original replacement parts.

Gravity replacement parts are field serviceable enabling easy repair to extend the life of your Gravity product and provide an eco-friendly alternative to the planned obsolescence of throwaway designs.

SPEAKER STANDS

Gravity® speaker stands use thick walled precision tubing, steel height adjustment collars and redesigned leg housings for maximum strength and durability. Air cushion and hand crank versions greatly facilitate lifting and lowering heavy loads, and our low-profile round base model provides an elegant, small footprint alternative to conventional tripods. In addition, the Gravity® range includes stands for your studio monitors, subwoofer poles and a selection of stand adapters.

SPEAKER STANDS

FEATURES

Sturdy, virtually indestructible steel collar with safety pin

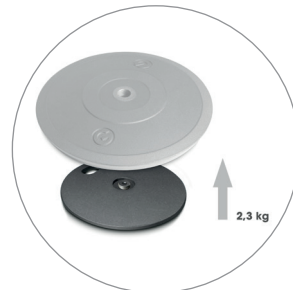

Comfortable ergonomic knobs

Newly designed aluminum die-cast Leg collar for superior strength

Crank operation for easy speaker raising and lowering

Vari-Weight® - Low-profile 9 kg cast iron base and a 5 kg weight plate which installs without tools

Tight, secure fit

TRIPOD SPEAKER STAND

The SP 5211 B is a classic tripod speaker stand made from thick walled, yet lightweight powder coated aluminum tubing with a load capacity of 50 kg and 192 cm maximum height.

The die cast aluminum leg collar has been completely redesigned to provide superior durability and longevity, the height adjustment collar is made of steel for additional strength and is virtually indestructible. It features a safety pin to securely lock the 35 mm diameter extension pole in place.

The ergonomic set screw knobs are made from high grade ABS with a soft touch, non-slip thermoplastic coating for comfortable operation.

A set of black coding rings is included with the SP 5211 B, additional ring packs are available in a wide array of colours for instant personalization.
